This meeting of the Tech Valley Game Space Board of Directors was held on Monday, 7/13/2026, starting at 6:00 pm EDT and ending at 7:29pm EDT.

The following members of the board were in attendance via teleconference:

Taro Omiya (Chair of the Board)

Jamey Stevenson (Executive Director)

Jordan Faas-Bush (Newly Elected Secretary)

Heath Gartner

Tom Carmona (Newly Elected Vice Chair of the Board)

___

The board has a quorum at 6:10 pm.

Filled the empty positions of Secretary and Vice Chair

1) Elected Jordan Faas-Bush as Secretary
2) Elected Tom as Vice Chair
3) Announced elections in Board discord channel

Discussed tracking action items/a trello board/something else.

A board member noted we should try to balance the help the tool provides vs the effort it takes to keep the tool updated. In the past tools have been more effort than they are worth.

If we ended up going with a spreadsheet some ideas for spreadsheet columns include: Action item, last action occurred, deadline, blocked by, assigned to. Jamey has a couple example spreadsheets and Heath also mentions ideas for making it easy to enter items.

Action Item: Jordan+Heath will research options and start a simple system to see how it works

6:54 - Started discussing the Center of Excellence Grant. Next step is Jamey needs to write a summary of the usage for RPI, it doesn't need to be super detailed. Jamey and Tom have a meeting tomorrow to work on the grant and will try to knock that out this week.

6:56 - Discussing partnership with Questar. Tom and Jamey will also be discussing negotiations during their meeting tomorrow. Jamey has talked to their principal (Jamey's immediate supervisor at the school) that this needs to get resolved over the summer for Jamey to want to come back so he's aware of that and has communicated to the next person above him to expect that email. Now we need to write and send that email.

We do need to make sure we don't permit Questar training some LLM/"AI" on our work since leadership there has been excited about that idea in general. We should make sure it doesn't even get pasted into a chat because external companies train on that.

Tom points out we still have hours banked with our legal team so we are able to use them.

Our aim for Questar is to have all pertinent info for the board to review by the August meeting and to make sure that's all on the agenda. Both to confirm if we approve the TVGS/Questar consultant contract (how much work TVGS is doing, compensation, etc.), as well as if Jamey is approved to be the teacher (and thus a Questar employee) for the upcoming school year. If that slips to September that's too late for comfort.

One last semi-related point Jamey has. There's a paid instructor opportunity for the 518 game changers program. In January/Feb we taught a class (and they have said the check is in the mail for that). There's another class lasting four weeks long that they asked us to teach for. They'll send an MOU which should be the same as for the previous work. Nothing has been signed yet, but Jamey is operating under the assumption/hope that it'll work out since that will help us ensure we're above 100k for the executive posting. It's at a rec center in Albany focused towards students underserved by game development programs in the past.

7:08 Website Recovery:

Checked in on where we're at, what is lost, and what we want to do for the future.

Possible future features that we could want to revive/implement include a calendar for upcoming events, a way to post news items, and being able to easily upload files to the website (to drag and drop to add assigned minutes into the webpage).

Having previous minutes accessible is probably a priority.

Mentioned needing to update internal documentation about uploading minutes and updating the website.

7:23 reviewed action items for next meeting

7:29 Tom motioned to Adjourn, Jamey seconded, all Ayes, meeting Adjourned
