Tech Valley Game Space

Board Meeting Minutes

This meeting of the Tech Valley Game Space Board of Directors was held on Monday, Oct 12, 2026 .

The following members of the board were in attendance via teleconference:

- Taro Omiya (Chair of the Board)
- Tom Carmona (Vice-Chair, Treasurer)
- Jordan Faas-Bush (Secretary)
- Heath Gartner

Meeting duration: 1:04

The board has a quorum at 6:02 pm and the meeting started.

We reviewed the previous meeting minutes. Cleaned up a few things upon discussion. Tom motioned to approve the minutes, Heath seconded, and all voted to approve the minutes.

We moved onto the Questar agreement agenda item. We're very close to a final version of that so he will likely be sending a version to the discord channel for review and approval. We'll likely get a response back tomorrow or Wednesday with an agreement that could be signed given that today is a holiday. They agreed on the hours and to prevent ingesting it by AI/LLM/Generative AI systems.

We're still working on looking into LMS systems that we can use, Tom is willing to look into those systems. Taro requests that we make a list and email it to Jamey that we can review and approve director@techvalleygamespace.org or education@techvalleygamespace.org with pros/cons/costs/if it's self hosted or not.

The board had to skip over some agenda items since Jamey was out sick, but will come back to those items in the future.

We reviewed the test task tracking system that we're looking to start using. It's not fully up to date but has some example tasks and some of the current tasks that are current. If we approve this sheet then we should move it over to the board TVGS user and in the board shared drive. One question Taro had was what the difference was between description vs notes columns. The intent behind that was that description would relate to the goal, vs notes

would contain information about the execution. Taro made a copy so that the correct account owns it so we're ready to adopt it.

Next up we moved onto the missions and visions statement update, still looking for some additional responses if folks are able to.

We have two upcoming events that we're already taking part in, Extra Life and Giving Tuesday, then some of us are going to RGS (Rensselaer Game Showcase) on the 14th, 1Upstate on the 7th, or other events also happening the same weekend like WolfJam (the 7th).

It seems like we should schedule our Extra Life for the weekend of the 14th. Heath is happy to assist somewhat but can't take the lead in planning the event.

In the past we've run Extra Life events as two twelve hour chunks rather than a 24 straight hour event so that folks are able to sleep.

Giving Tuesday should be the Tuesday after Thanksgiving. In the past we've used Facebook, but we should think about putting together some social postings for other platforms. Heath says in the past we used Little Greenlight which we may or may not be using any more. We've also used paypal in the past. Tom should have access to that account. Heath and Tom are planning on syncing up to figure out the donation page situation, Heath plans to make the assets.

With some extra time Tom reviewed the current Questar agreement. The first seven pages are the same as last year (while changing the date). We sent this agreement to Questar so Tom hopes for a quick approval given that we requested it. The scope of work section has a few minor changes so it correctly addresses what the course covers, but aside from that and the date change it is very similar to previous contracts. Tom is going to send the board the current contract and the proposed changes that would be in the final contract so that all the board members are able to review it quickly for a fast approval.

7:06 Tom motions to adjourn the meeting, Jordan seconded. 3 ayes no nayes.
Meeting has been adjourned at 7:06 PM EDT.

Jordan Faas-Bush

TVGS Secretary of the Board
